

OUTDOOR SPORT SURFACES

Courts for Municipal and Commercial Applications

World's Largest CourtBuilder™

Build a Better Court with the World's Leading Outdoor Sports Surfaces.

Installed **150 million sqft**
That's enough to wrap around the globe.

More park districts, schools and community centers are replacing their old acrylic, concrete and asphalt recreation spaces with versatile Sport Court® modular outdoor playing surfaces. Sport Court pioneered the concept of the modular outdoor game court in 1974. Thoughtfully engineered, manufactured and tested in Salt Lake City, Utah, our premium surfaces are the safest and most durable on the market. Working with the world's largest network of local CourtBuilders,™ you can confidently provide the ideal playing surface for your community's children, teens and adults.

Made for Basketball, Pickleball and More!

Transform your asphalt or acrylic basketball or tennis courts into lively Sport Court surfaces that offer more options for play. All Sport Court game courts can be easily configured to accommodate basketball, volleyball, pickleball, tennis and more, without compromising on playability or safety.

Basketball

Pickleball

From Day Camp to Competition, Everyone in Your Community Wins.

Working with your local CourtBuilder, you can design a court to meet your recreation space and outdoor programming needs, including team sports, educational curriculum, group fitness, day camps and more. Upgrading to a Sport Court

outdoor court will increase the use of your facility's outdoor recreation area because it provides a safer experience for community members of all ages and allows for more game options.

Quick installation and easy maintenance

Designed to fit your facility and budget

Supports Zero Waste initiatives

Safe

Multiple Sports. One Surface.

- Basketball
- Volleyball
- Pickleball
- Tennis
- Hockey
- Futsal
- Handball
- Shuffleboard
- Hopscotch
- Tetherball
- Four Square
- Kickball

Fully Customizable Sizes:

- 100' x 120'
- 60' x 120'
- 50' x 80'
- 30' x 60'
- 35' x 55'
- 25' x 45'
- 25' x 30'

Your local CourtBuilder can assist with designing the right court for your specific needs.

Give Them the World's Safest Outdoor Court.

All Sport Court tiles provide exceptional protection against abrasions, head injuries and joint strain. Extensive third-party testing ensures that athletes of any age remain safe while playing and competing on Sport Court surfaces.

More Shock Absorption.

The most important safety consideration of any sports surface is shock absorption: the ability of the surface to absorb the energy of an impact. Sport Court surfaces feature patented, vertical shock-absorbing grids to reduce the risk of short- and long-term injuries.

Shock Absorption Level

ASTM F2772 Class 1 Standard

As an outdoor surface with 16% shock absorption, Sport Court surfaces exceed minimum safety standards and meets ASTM F2772 Class 1 classification, the safety standard for indoor sports floors.

With no shock absorption, concrete is not a safe sports surface.

Lateral Forgiveness.™

Too much lateral movement is like trying to change direction while running on ice; you keep sliding. Not enough lateral movement can create strain on your muscles and joints. Sport Court's Lateral Forgiveness feature allows for slight movement between tiles to absorb the transition forces generated from sudden shifts in direction, reducing the risk of muscle and joint injuries.

Lower Risk of Skin Abrasion.

Abrasions and scrapes can be common when slipping on a hard court. All Sport Court tiles feature specially designed surfaces that lower the risk of skin damage without compromising on traction.

Best Balance Between Skin Abrasion and Traction

Asphalt, concrete and acrylic are much more abrasive and will cause injuries to skin when falling.

Impact Protection Index

The average 7 year old boy is 44" tall.

Critical Fall Height is a test used in conjunction with the ASTM 1292 standard for evaluating playground surfaces, such as sand, wood chips, resilient rubber and asphalt.

Superior Impact Protection.

A head impact from a few inches above a concrete or acrylic surface can cause a concussion. Sport Court surfaces are significantly more forgiving and reduce the likelihood of serious head injuries from a fall, and they provide more protection against impact injuries to wrists, arms, knees and shoulders compared to other hard-court surfaces.

Your Court. Your Inspiration.

A Sport Court game court not only brings people together, it's customizable to create a perfect visual experience. With a palette of 23 fade-resistant colors, you can easily design the look of your court to fit in with the environment—using earth tones and neutral colors—or stand out with bright colorful designs. From inspiration to installation, your local CourtBuilder will work with you every step of the way.

Metallic colors are only available in PowerGame+. Limited colors may be available for SportGame PB. Contact your local CourtBuilder for current availability.

Stands up to Weather. Stands up to the Sun.

Outdoor courts face harsh conditions, including UV radiation, temperature extremes and humidity, all of which can degrade the court. Partnering with the Mississippi Polymer Institute, Sport Court developed advanced processes, materials and designs to create the best weathering resistance on the market.

PowerGame+
10 years

Long Lasting Color Stability.

In accelerated weather testing that simulates 10 years of sun exposure, the colors of PowerGame+ and SportGame PB tiles remained vibrant. Competitive tiles faded in as little as 2 years, and all showed significant color fading well before 10 years.

Before

Ideal for Court Renovation.

Make the most of your existing facilities. Sport Court's patented, interlocking tiles easily overlay outdated concrete, asphalt and acrylic surfaces. Now, you can repurpose underutilized courts and free up space for more sports and recreational programming.

Have an underused tennis court that you are looking to convert to pickleball to allow more community members to enjoy? SportGame PB is the perfect solution! What's more, Sport Court surfaces are guaranteed to look great for years to come with minimal maintenance.

The World's Premium Outdoor Multi-Sport Surface.

PowerGame+ is the choice of park districts, schools and championship competitions around the world. Designed to provide the highest levels of safety and playability for basketball and multi-sport applications. The ball bounce and control is on par with what you'll find on an indoor hardwood court.

- Premium multi-sport modular surface
- Best-in-class UV protection from color fading
- Advanced double-tier design for high-impact protection
- Diamond grid design for fastest water drainage and lowest water retention

Size	Weight	Head Impact ASTM 1292	Traction EN 13036-4	Ball Rebound DIN 18032
12" x 12" x 0.75"	0.7 lbs	37" drop height pass	99/45 BPN (Dry/Wet)	100% ball bounce

Super Strong, Triple-Action Locking System.

The triple-action locking system for PowerGame+ provides the optimal locking strength to prevent tiles from buckling or unlocking under the weight of athletes—without compromising Lateral Forgiveness or ease of installation.

- Wider, deeper connection loops
- Connects on three surfaces
- Double-wall design for strength and durability
- Unmatched side-to-side locking strength

Remarkable Durability.

Like all Sport Court outdoor surfaces, PowerGame+ requires very little maintenance. The color technology and patented UV protection allow for the most vibrant, fade-resistant colors available.

The advanced copolymer tiles are easy to clean, resist moisture and impacts and are backed by a 15-year limited warranty.

SPORTGAMEPB

Bringing Safety and Playability to Pickleball.

SportGame PB is an authentic sport surface, designed to last for over 15 years. It is specially engineered for recreational and competitive pickleball play while maximizing safety, reducing the risk of injury and supporting physical play for hours at a time.

SPORTGAMEPB

- Premium pickleball surface
- Consistent ball bounce response for optimal pickleball play
- Traction comparable to acrylic surface with additional protection against skin abrasion
- 13% shock absorption, superior to acrylic and meets ASTM F2772 standards for a sports floor
- Minimal maintenance required

Size	Weight	Head Impact ASTM 1292	Traction EN 13036-4	Ball Rebound DIN 18032
9.842" x 9.842" x 0.5"	0.45 lbs	16" drop height pass	102/81 BPN (Dry/Wet)	100% ball bounce

A Smarter Alternative.

Compared to acrylic surfaces, SportGame PB provides a better game experience because in addition to shock absorption, it delivers the best balance between traction and risk of skin abrasions from falls. And with its superior durability and minimal maintenance costs, you can save thousands of dollars over the life of the court. When you add it all up, SportGame PB comes out ahead every time.

Maintenance Cost 3,600 SQFT Court over 15 Years

Comparing Pickleball Surfaces. Traction and Abrasion

SportGame™

Single-tier design provides playing comfort and impact protection

UV stabilizers and patented formula keeps court playable up to 180°F

Unique grid design for excellent traction and low skin abrasion

Best modular solution for roller sports

Size	Weight	Head Impact ASTM 1292	Traction EN 13036-4	Ball Rebound DIN 18032
9.842" x 9.842" x 0.5"	0.5 lbs	11" drop height pass	102/37 BPN (Dry/Wet)	99% ball bounce

PowerGame™

Ideal entry level multi-sport outdoor modular system

Superior safety compared to traditional hard-court surfaces like concrete and asphalt

Versatile: For basketball, futsal and volleyball PowerGame has unlimited potential for your community

Size	Weight	Head Impact ASTM 1292	Traction EN 13036-4	Ball Rebound DIN 18032
12" x 12" x 0.625"	0.7 lbs	26" drop height pass	105/46 BPN (Dry/Wet)	99% ball bounce

Sport Court Essentials for a Quality Court.

Everything that goes into creating your Sport Court surface is designed to meet your needs and expectations today and for years to come. Sport Court delivers:

Low life-cycle cost	☑	Championship-tested sports performance	☑
Over 45 years of manufacturing	☑	Licensed and insured	☑
15-year limited warranty	☑	Manufactured in the USA	☑
Hassle-free, full-service installation by CourtBuilders with local expertise	☑	Quick installation and easy maintenance	☑
Independent safety testing	☑	The surface you need for the sports you play	☑
Experts in moisture and drainage solutions	☑	Designed to fit your facility and budget	☑

The Choice of Champions Around the World.

Sport Court surfaces are used at the highest levels of competition by leading sports associations around the world, including the NCAA, FIBA, FIVB and USA Volleyball.

Rely on the World's Largest and Most Experienced CourtBuilder Network.

Fiercely committed to quality, Sport Court, unlike other game court manufacturers, only allows authorized CourtBuilders to install the world's leading indoor and outdoor modular game surfaces. They live and work in your area, so they understand local building codes, weather and environmental issues. Find your local CourtBuilder at www.sportcourt.com.

Installation and Maintenance.

Your local CourtBuilder will be your partner every step of the way. Working closely with you, they will take care of every detail: from design consultation and installation to responsive support and service for the life of your court.

Installation.

Each installation is unique and based on the subfloor properties. It may include pouring a concrete slab to specification, anchoring the court and using ramp edging for safety and security. Your CourtBuilder is equipped to recommend the best solution for your facility.

Maintenance.

All Sport Court outdoor surfaces require minimal cleaning and maintenance. You can clean your surface as needed, using a high-pressure hose to remove dust and dirt. Your CourtBuilder can provide a more detailed periodic cleaning and maintenance program customized to your specific site needs.

Sport Court is proud to be a court supplier for many of the world's elite athletic associations.
