

ALPINE TRAIL COMMITTEE MEETING  
MARCH 24, 2021 7:00 PM

Attendees- Will Jones, Breezy Anson, Heather Peper, Trent Edwards and Ed Bush

Will read the minutes from last time.

8am at the Bowery on April 17 - trail service day

April 22 at 2pm is the Sterling Scholars from UVU- they anticipate bringing 200 kids to work on our trails for us for Earth Day.

On the map, relabel Judy's Trail to read North Spring. Turkey should be labelled ZPC.

Downhill only signs at bottom of Rodeo and the Rodeo up/down intersection by the Rodeo grounds

Warning/slow down sign- heading down out of the parking lot at Rodeo Grounds, add new trail or trails off that intersection to reroute up and down separately?

Heather said that city councilwoman Carla Merrill asked if Ruin should be downhill only? Will and Breezy said the visibility is fine and didn't think so, Trent would prefer downhill only.

Add big rocks on North Spring where trucks and ATVs are going up the hill off the paved road, to block them from going up- April 22

Grade the parking lot and rake and reseed the area above the rodeo grounds on April 22  
golf ball issue- ask city council? recent increase in golf balls hit into in the park. Could be dangerous, litters the park.

**Breezy** will get signs made and put up to advertise city trail day. at 3 entrances to the city: roundabout. Westfield road. Canyon Crest.

"Signs by Tomorrow" will make them fast.

There's a pile of wood leftover from last year that we can use to repair bridges sitting on the fire road almost up to the cement box. Cones also got left last year.

Rodeo down- top section in the trees needs smoothing, bring dirt in from the sides, water drains, and erosion control

South Spring erosion control - the runners need it to be smoother

Wayne Patterson- Add buck rail where people are cutting down from the new neighborhood to see the poppies- make an established trail instead of people walking everywhere

Wayne Patterson- connect Crossfire with the other trail system. rework that section, done by Bonner. he will rework the uppermost part of Ziggy downhill

Vista Ridge- hammered by horses just in the past 2-3 weeks. unrecognizable as a trail right now. and they got Three Falls again. also Longview is hammered.

**Alpine City** will provide something like fruit, juice and donuts for the trail day

get 3-4 more project heads- could be MTB school team leads, for each Trail Day project

**Will** is going to talk to Shane and Troy about the horse problem. what to do? Fines? How would we catch anyone? Need better connections with the horse community, the manager at Bridle Up Hope is great.

Close trails to horses from approximately Nov 1 until June 1. Must be dry!!!! Need signs  
3/4 of Forbidden got bought and is now unavailable for trails.

Dustin is rerouting A Stoney Way to cut up to Forbidden in the gully.

Bodily Harm goes up and over the mountain now. and the new More Effort where it hooks into Forbidden. both need work. \*\*\*\*use high school teams to work on bodily harm and more effort\*\*\*\*

**Heather**- reach out to teams at Lone Peak, AF and Skyridge. they should contact **Trent** with a projected head count and he will give them an assignment. Lehi is working on Traverse Mtn trails and PG is working on their own trail system.

map needs street names instead of numbers in the new neighborhood. Made some corrections of spellings and trails on the map.

long term projects- make Ruin a bigger jump trail. make Lambert Luge a better flow trail.

The city will fund the green Three Falls trail and Crossfire and the new downhill by the fence (south of Spring, needs a name)

**Breezy is** talking to a lawyer about setting up a foundation for Judy's Trail. Ed asked if we need another 50k

Heather asked who is barricading sections of trail with rocks and branches, and if intersections can be adapted for better flow

NEXT MEETING IS WEDNESDAY, MARCH 31 AT 7PM. CONFERENCE CALL

SUMMARY:

#### Trail Day Projects- April 17 at 8am

Bodily Harm

More Effort

A Stoney Way - rake it

Rodeo - top of the downhill

Signage

Pruning (Heather has a list of areas)

South Spring erosion control

North Point Connector

Weed control

Rodeo Grounds to Rodeo trail connector - separate up and down traffic?

#### Wayne Patterson

connect new neighborhood to the Poppies

Connect Crossfire to the existing trail system

#### UVU Service Day Projects - April 22 at 2pm

grade the Rodeo Grounds parking lot

rake and reseed the hill above the rodeo grounds

Add big rocks off North Spring where trucks and ATVs are going up the hill off the paved road, to block them from going up

#### Long Term

Judy's Trail

Crossfire

New downhill trail south of South Spring

redo Ruin

redo Lambert Luge

new blue and black trails off of Three Falls. the green one is 1/3 done
