

Job Posting

Title: P.E. / Mid-Level to Senior Bridge Engineer

Forsgren Job ID: BOI-PE7-112019

Location(s): Boise, ID

Employment Type: Full-time / Exempt

Position Overview:

Building on our 57-year legacy and established presence throughout the western US, Forsgren Associates is experiencing steady growth. We are looking for an energetic bridge engineer with 7+ years of experience. This person will be responsible for performing bridge design, working within a design team, and depending on experience, be responsible for project design and management. This position will require a thorough knowledge of bridge design, and professional licensure within Idaho and surrounding states, or an ability to obtain reciprocity. Qualified candidates should be comfortable proactively collaborating with other staff and clients to continue to grow our bridge practice. This opportunity is ideal for a career-minded person who is interested in a role on our bridge team.

Duties and Responsibilities:

- Managing individual design tasks up to large bridge design project management, depending on experience
- Take an active role in assisting or leading business development efforts by helping to identify and win new business through networking, proposal preparation, and client presentations, depending on experience.

The above job description is not intended to be, nor should it be construed as, exhaustive of all responsibilities, skills or competencies associated with this job.

Minimum Qualifications:

- B.S. in Civil Engineering minimum with a structural emphasis (M.S. in Structural Engineering preferred)
- Professional Engineer (PE) registration in Idaho and surrounding states (or ability to obtain within 3 months)
- 7+ years of bridge engineering experience
- Experience with state DOT procedures and requirements
- Experience with bridge related structural software (LARSA, Mathcad, MDX, PSBeam, BrR, Bentley Concrete or Steel Bridge modules, etc.
- Ability to successfully manage client relationships
- For Senior Level applicants; Project management experience including the development of project proposals, scopes, budgets, and successful execution and tracking of engineering projects
- Proven experience in bridge project delivery processes that include conceptual through detailed design, opinions of probable cost, and constructability and quality assurance reviews

- Ability to coordinate across engineering disciplines as required
- Excellent verbal and written communications skills, and strong interpersonal skills

Benefits:

Forsgren Associates offers a competitive compensation and benefits package as well as the additional benefits of being an employee-owned company and sharing in the company's success. We respect the personal needs of our employees, and actively promote a healthy work / life balance. Empowering our team members to succeed, we reward them for their success.

Company Overview:

Forsgren Associates is an employee-owned, multi-discipline civil engineering and environmental consulting firm that provides planning, permitting, design, and construction management services for infrastructure improvement projects. Since 1962, we have been promoting responsible development by protecting and enhancing civil infrastructure — cost-effectively, promptly, and sustainably. As a result, over the past 57 years we have steadily grown to over 100 employees in 14 offices across 10 states. Join us. We are committed to engineering stronger communities. www.Forsgren.com

To apply:

Please submit a letter of introduction and resume to **Succeed@Forsgren.com**. Please reference the Job Title and Forsgren Job ID in the subject line.

Forsgren Associates will not accept unsolicited resumes from third party agencies or recruiters. No fee will be paid to third parties who submit unsolicited candidates directly to hiring managers.

We thank all applicants; however, only candidates selected for an interview will be contacted. This position is subject to close at any time. Forsgren Associates is an Equal Opportunity Employer.
