## **RAILROAD SERVICES**

From track inspections to turnkey development, GBI Railroad Services provides a full range of railroad construction, maintenance, and repair services to keep your business and stock rolling.

We operate from our Wyoming and New Mexico locations to service customers throughout the intermountain west and Texas. We have the expertise to safely balance rail maintenance needs to the weight, speed and volume of traffic to keep costs to a minimum.

GBI's crews are trained and compliant with all guidelines and regulations of FRA, AAR, MSHA and the individual plant. Our managers and supervision bring decades of experience which, combined with our strong safety and quality record, make GBI a contractor of choice.
