

My name is B. Kent Havens, and I am running for town council for Toquerville.

*My Wife and I have been in Toquerville for many years, and have seen much change and growth!

**My Wife and I were involved with fundraising for the building of the bridge and thus making it possible along with many other caring residents who worked for the acquisition of the land and funds for the Toquerville City park!*

**I am a business owner and licensed contractor for both commercial as well as custom homes! I understand the need for an organized building Dept.*

** The issue that I want to be involved with is an organized plan for the building of our town!" The importance of emergency service access to all of the City Residents*

*. *This City is a business and we need to treat it as a business, making the best choices for the best for the town and residents.*

**I have been married to my wife for nearly 40 years, we have 4 children and 5 grandchildren! Many family members live in the area as well.*

**I will do my very best to continue making this the beautiful town that we love and enjoy!*
