**(801) 543-2100**

## **Tanks & Plate Steel**

Turnkey Design, Fabrication & Field Erection

API 650 Storage Tanks, floating roofs, Geodesic Domes

API 653 Tank Repairs (Bottoms, Roofs, Seals, Shell)

Scrubbers & Flare Stacks

Pressure Vessels (NB: R, U & U2)

Handrail, Stairs, Ladders, Nozzles, Doors & Manways

Elevated Clarifiers/Thickeners (including mechanisms)

60,000 Sq. Ft. Fabrication Facilities on 32 Acres

## **Instrumentation & Electrical**

Plant Commissioning & Shutdowns

Greenfield / Brownfield / Conversions

PLC Setup and Programming

SWDs, Gas Plants, Compressor Stations, Well Pads

Data Centers, Generators, PDU, UPS, Switchboards

Power Generation (Fossil & Renewable)

Commercial Buildings (Austin, TX)

## **Coatings**

Tanks, Vessels, Stacks, Structural, Mechanical, Piping

Shop Blasting & Paint Booth Capabilities

Automated Equipment (Blastrac Horizontal & Vertical)

Concrete Coating and Secondary Containments

Plural Component Applications

## **Structural, Mechanical & Pipe**

Structural Concrete

Structural Steel Fabrication and Erection

Large Field-assembled Plant Equipment: AQCS,  
Condensing Units, ID/FD Fans, Rotating Equipment,  
Material Handling, Package CGT/Compressors, HRSG's

Process Piping: All Types, Pressures, Schedules,  
NB: R, U & U2

**Safety   Quality   Experience   People   Integrity   Competitive**

**GBI understands what it takes to deliver safety and quality projects for customers in the Oil & Chemical, Mining, Power, Water and Other industries.** GBI's general contractor scope on a new gold processing plant included (18) Tanks, (400) tons Structural, (14) Agitators and Drives, (3) Thickeners, (8) Screens, (4) Shakers, (8) Pumps, (3) MCC Buildings, and (8000) feet Victaulic and welded stainless steel piping.
